Product Description

The Comfort Fix ISOFIX base is compatible with the hauck COMFORT FIX car seat. The ISOFIX BASE can then be used as a practical addition to the following hauck pushchair sets: Atlantic Plus Trio Set, King Air Plus Trio Set, Maxan 3 Plus Trio Set, Maxan 4 Plus Trio Set, Rapid 3 Plus Trio Set, Rapid 4 Plus Trio Set, Rapid 4 S Plus Trio Set and Soul Plus Trio Set.

The ISOFIX BASE can be secured into vehicles that have an ISOFIX connection. It is easy to assemble in the vehicle with just a few manoeuvres. Simply twist out the ISOFIX connectors by 180 degrees - lock in - done. The base unlocks with a one-handed locking mechanism and automatically locks into place after positioning it on the vehicle floor. This almost completely rules out the risk of using it incorrectly.

To install the Comfort Fix car seat you simply need to put it in the middle of the base and then special strips ensure that the car seat is installed correctly. As soon as the car seat has reached the correct position it lock automatically. This almost rules out the risk of using it incorrectly. This guarantees optimum safety.
